

# Survival Guide of An Aftermath Student

# Lesson 0

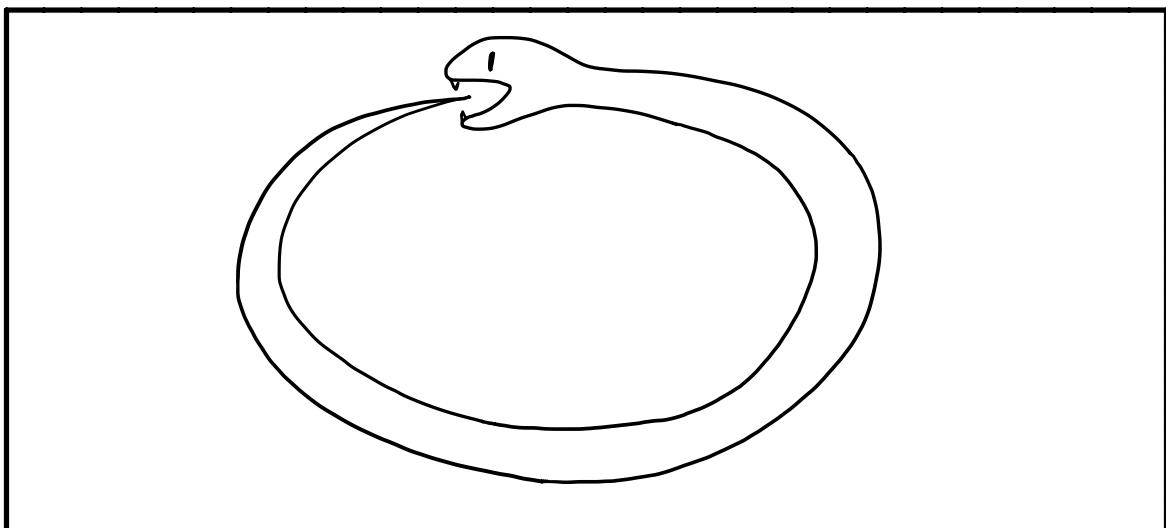

# Lesson 1

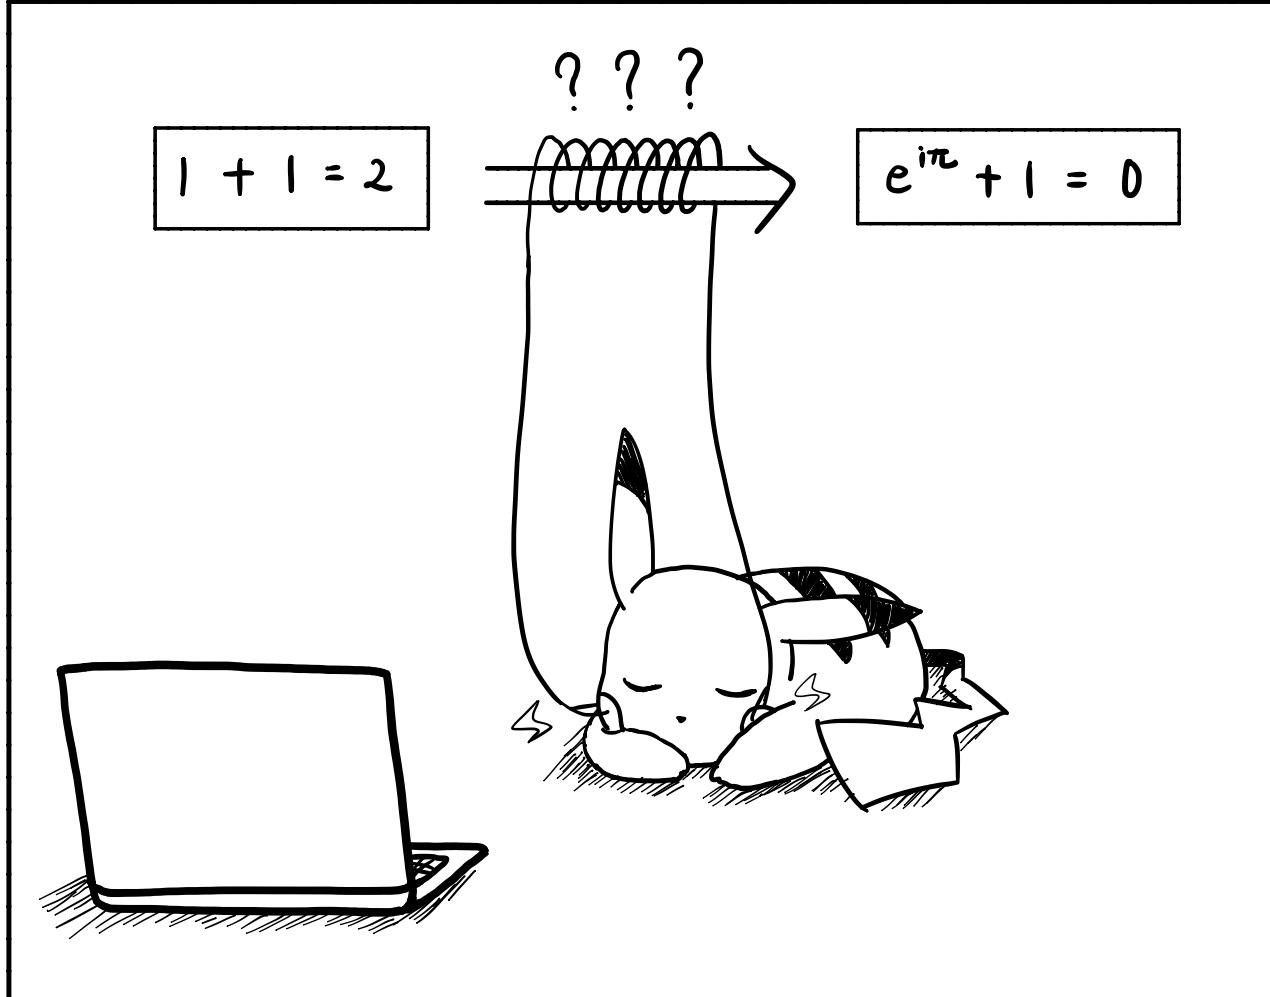

# Lesson 2

## learning and re-learning

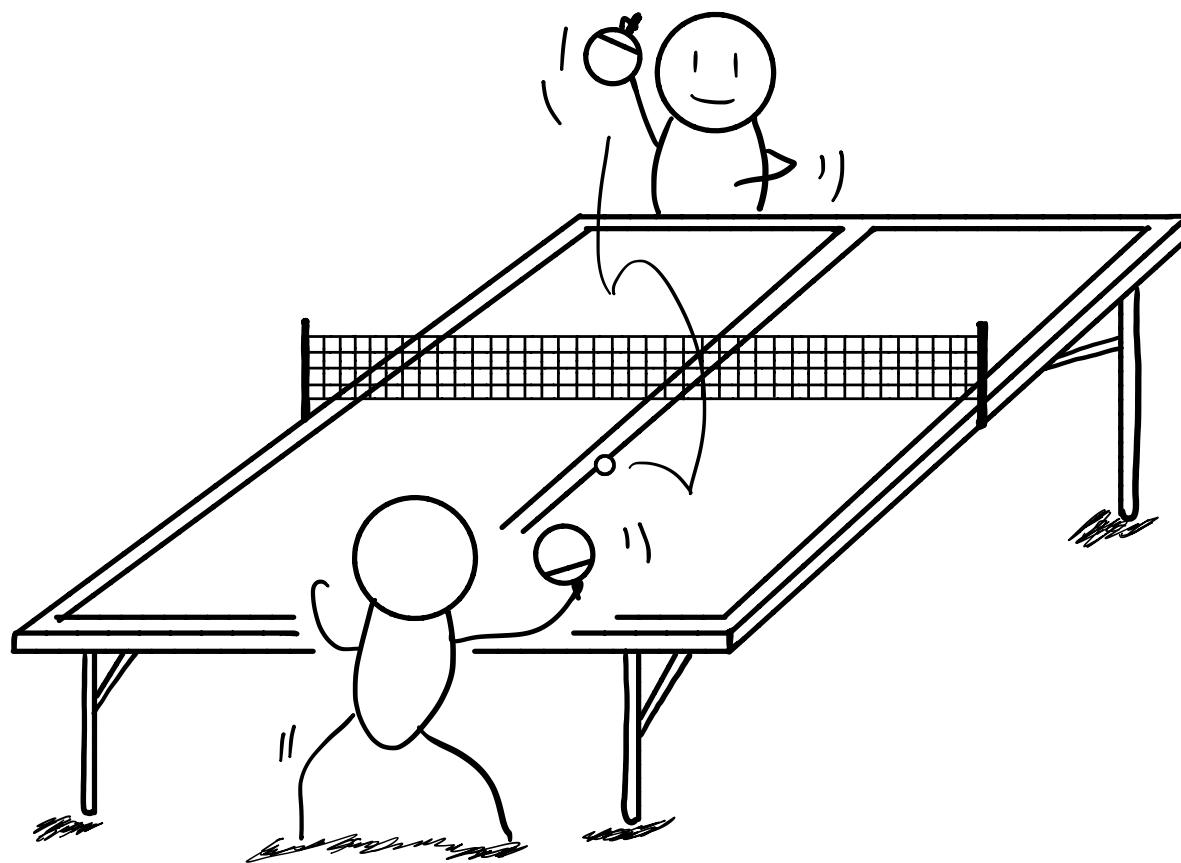

Always backward to the  
golden age of mathematics

# **Lesson 3**

**I don't need to change the world overnight, I am going to change the world over the next 50 years.**

**I don't need to build a killer product overnight, I just need to build a winning product, and the goal of winning is so that you can play it again.**

**It is just like ping-pong, if you just play well to get another game, you can bit for a long time.**

**Most “company” need to realize that in fact this is a long road and that you can't build a perfect product.**

# Lesson 4

正 是 修 行 时
